BASIT AYUOB

APPLICATION ARCHITECT

ABOUT ME

Organized and dependable candidate successful at managing multiple priorities with a positive attitude. Willingness to take on added responsibilities to meet team goals.

WORK EXPERIENCE

Application Architect (June 2025 - till now)

Aithentic, USA

Link: <https://www.linkedin.com/company/aithenticinc/>

Aithentic is a cloud governance and FinOps platform focused on cost optimisation, visibility, and analytics across multi-cloud environments. I'm acting as an Application Architect.

My responsibilities in the given role are as follows:

- Designed and evolved multi-tenant SaaS architecture for cloud cost analytics and governance.
- Defined data ingestion and processing pipelines for cloud usage and billing data.
- Established best practices for performance, security, and scalability across the platform.
- Ensured high-quality delivery through architecture reviews and technical mentorship.

Technologies: ReactJs, Node.js, Express.js, Socket.io, Redis, Git, Docker, Kubernetes, MySQL, PHP Laravel, Opensearch, AWS

Application/Solution Architect (June 2021 - till now)

Marital Dispute Advisors (MDA), USA

Link: <https://www.linkedin.com/company/aithenticinc/>

MDA is a legal-tech platform providing structured workflows and advisory services for marital dispute resolution. I'm acting as an Application Architect.

My responsibilities in the given role are as follows:

- Designed end-to-end application architecture for legal workflows and client case management.
- Translated complex legal processes into scalable, user-friendly system designs.
- Ensured security, data integrity, and compliance for sensitive legal information.
- Worked closely with stakeholders to align technical solutions with business and operational requirements.

Technologies: ReactJs, Node.js, Express.js, Git, Docker, Kubernetes, MS SQL, BULLMQ, .NET, Azure
